Adapt today, optimize tomorrow.
5 solutions for a smarter, safer world.

AXIS COMMUNICATIONS

Pentegra Systems

The COVID-19 pandemic has affected our everyday lives and changed the way we do business. While making certain people are safe, we must also keep organizations, schools, and businesses running as effortlessly as possible. Simultaneously, major global trends – digitalization, globalization, and urbanization – are already putting demands on our societies. Many of these challenges can be addressed with smarter solutions, allowing us to adhere to pandemic regulations today while investing in greater convenience and efficiency post-pandemic.

Occupancy management
Control the number of people in a location

Today
> Follow local protocol for occupancy within an area.
> Understand visitor trends.
> Improve operational planning.

Tomorrow
> Use occupancy data to strategically plan employee schedules, make informed business decisions, improve customer experience, and determine high traffic times.

Low-touch access control
Grant access with the scan of a QR code

Today
> Unlock entrances with fewer touch points.
> Allow approved visitors to independently enter premises and move through accessible areas while allowing you to trace activity.
> Control access to PPE, valuable inventory, or high-security areas.

Tomorrow
> Keep critical areas safe from unauthorized people.
> Effectively grant access to secured areas.

Public address
Communicate important audio messages

Today
> Use network audio speakers to convey alerts, including informative messages about social distancing or mask requirements.

Tomorrow
> Transmit scheduled, triggered, or live announcements like reminders, promotions, urgent alerts, and deterrence messages. Or use background music to enhance the customer experience.

Live broadcasting
Share information with a broader audience

Today
> Execute virtual meetings and live broadcasts for remote audiences to keep viewers engaged and activities running.

Tomorrow
> Share information with a larger audience.
> Avoid unnecessary travel for a more sustainable future.

Remote communication
Visitor management and virtual monitoring from anywhere

Today
> Interact and receive audio and visual status from employees, tenants, visitors or patients without being face-to-face.
> Keep track of who has entered and exited your site.

Tomorrow
> Flexible control for up to 10,000 contacts with five credentials each.
> No need for additional equipment around entrances.
> Integration with other building systems.

AXIS Occupancy Estimator

A cost-effective and scalable video analytics application that collects real-time data on how many people are at a location. A pre-set occupancy threshold can also be set to trigger an alert to staff or customers when met.

Download a free trial:
www.axis.com/products/
axis-occupancy-estimator

Compatible Axis network camera

The camera should be mounted straight above the point where people pass to best gather data.

Recommended products:
> AXIS M30 Network Camera Series
> AXIS M42 Network Camera Series

View the full list of compatible Axis cameras:
www.axis.com/products/axis-
occupancy-estimator/support-and-
documentation

Axis Occupancy Visualizer

A free, optional add-on application that provides a visual overlay on a public view monitor.

Supported hardware:
> AXIS FA54 Main Unit
> AXIS P3245 Network Camera Series

Low-touch access control

Solution components

AXIS Visitor Access

A free application that generates and emails a QR code which can be scanned at the intercom and allows access for a specified visitor for a duration of time.

Download for free:
www.axis.com/products/
axis-visitor-access

Axis network intercoms

Scans QR code to allow access.

Recommended products:
> AXIS A8004-VE Network Video Door Station
> AXIS A8105-E Network Video Door Station
> AXIS A8207-VE Mk II Network Video Door Station

Axis network door controller

Credentials are stored in the brains of this device and determine access.

Recommended product:
> AXIS A1001 Network Door Controller (AXIS Entry Manager is pre-installed on this device)
